**Subject:** FW: Inquiry about Seneca Army Depot Testing

Hi. Bob Morse here. I'm the Seneca RPM. I just got the email below. I spoke to Angela briefly for help and she said to email it to you.

I'm thinking he's talking about PFAS and the answers will be simple, but he doesn't say PFAS. The Army is doing PFAS WORK right now, results in July.

I will call the Army now to touch base and then get back to you. Thanks.

Bob

**Subject:** Inquiry about Seneca Army Depot Testing

Mike and Bob,

I hope you two are well. My name is James Gilbert and I'm a reporter at News 8. I'm inquiring about testing that is being done next month for hazardous materials at the Seneca Army Depot. Is there work being done there to help remove pollution? What kind of testing is being done? What is the most prevalent chemical there now?

Thank you for the help,  
-James
